Professional Summary

Computer Science student at the Arab Academy for Science, Technology and Maritime Transport with a GPA of 3.5. Strong background in web development, software engineering, and data analysis. Hands-on experience building full-stack systems and working in team environments. Fast learner with excellent communication and leadership skills. Seeking internship or junior developer opportunities to apply and grow my technical expertise.

Work Experience

July 2024 – August 2024

Front-End Intern, *ictHub*, Cairo, Egypt
- Developed 5+ responsive webpages using HTML, CSS, and Bootstrap during a 4-week internship.
- Collaborated with a team of 6 interns to create a mock e-commerce website with real UI/UX design standards.
- Reduced page load time by 30% through code optimization and CSS restructuring.
- Presented the final project to a panel of 3 developers and received positive feedback on layout and accessibility.

Education

Expected June 2026

B.Sc. in Computer Science, *Arab Academy for Science, Technology and Maritime Transport*, Cairo, Egypt
GPA: 3.5 / 4.0

Academic Projects

8-bit Web Store — Built a full-stack e-commerce platform with over 20 product listings. Implemented login, cart, and order tracking using PHP and MySQL.

Car Spare Parts Web Store — Created an e-commerce site that supported admin and user interfaces. Developed SQL queries for managing 100+ products and orders.

Rufuf POS System — Developed a barcode-based POS system for supermarket simulation in R Shiny. Processed mock transactions with up to 500+ items scanned.

iGym Website — Designed a fitness-themed landing page viewed by 20+ classmates. Applied responsive design principles and user feedback.

Clothes Shop Database — Structured and populated a normalized SQL database for 3 inventory categories, 20+ products, and multiple transaction types.
